Professional profile

Industrial engineer committed with one of the most important principles of my career: continuous improvement, which allows me to set new challenges for myself every day in order to advance personally and professionally. This philosophy, which I adopted at the beginning of my career, has given me professional experience in team management, decision-making, inventory and data analysis.

Professional Experience

GO-AI Asociado SME, Amazon

June 2021 - July 2023

- Lead work teams to improve times and methods in order to achieve company metrics.
